In the carrying out of this plan astren is firsts is being made to show that the new tariff has a arted up American industries improved American wages at I stingulated / merican adustry Articles are | ablished by employes of the treasury department in cu rent reviews magazines and newspapers in ad vance of giving out the figures to the of he and in violation of law In this way the explanation of the figures are in fact published before or with the figures for the benefit of cuckoo organs stance the New York Tribune of the both of August is on y able to present a table of exports and imports, which was practically used in the North American forces a month before byta treasury offigualfas the basis of an article. It is unnecessary to say that the points brought to light by the Tribune's handling of this table differ greatly from those made by the cuckoo treasury official In the latter case the idea is conveyed that Grover Cleveland found the government and country a wreck and by his able financlering and the bond syndicate set everything homming again.

What are the real facts? It is not improbable that what I have shown in a previous article to be the real condition of the wool, woolen and worsted Industries will apply in a greater or ess degree to all industries seriously affected by the Democratic tariff law. Aided to this the encouragement given to under valuation will greatly increase importstions. It must be borne in mind that the new woolen tariff was not in force more than six months, June 36, 1895, when the fiscal year closed. And just for the year with air months only of new taxiff, the Imports increased 109 per cent. Take R. G. Dun & Co.'s reports to-day and we find textile infor s have been very heavy and American woolen
